

Overview

We work with local companies and international companies to improve their sales by designing effective corporate websites.

At KZK Pixels, we recognize that every small business begins with a dream and a passion to succeed. We realize that it also takes a great deal of time and energy to make that dream a reality. That's why we're here, to help small businesses succeed and to improve the personal lives of our clients.

To empower our clients to capitalize on the power of the Internet, we provide an array of low-cost Web-based services including Web design, Web application, e-commerce and Web hosting. KZK Pixels provides the tools and resources small businesses need to succeed. We charge additional web design page as low as RM 80.

We are proud to say we have been top 10 in the Google Search Engine listings for keyword "Malaysia Freelancer" and top 5 listing for keyword "Malaysia Freelance Website Designer" in Yahoo Search Engine for over 6 Month.
